

We have been busy planning a comprehensive reopening strategy including detailed health and safety programs using the guidance from Federal, State, and Local experts. As part of our efforts we've been working hard and are excited to announce that the Riverside Convention Center has applied for accreditation as a GBAC (Global Biorisk Advisory Council) Star Facility. Currently, the center has 5 GBAC Certified Technicians with an emphasis on SARS-CoV-2/ COVID 19, that number soon to grow!

We miss you all and cannot wait to be together soon, enjoying each other's company with the exceptional boutique hospitality experience you have come to expect from us and that we and the Riverside Convention Center love to deliver!

We are providing special incentives to our loyal clients, new programming opportunities for our industry-unique outdoor meeting and gathering spaces, accompanied by our innovative and inspired farm-to-table cuisine and special craft beverages infused with our famous Riverside citrus flavors.

Like you, we are anxious to be with friends, family and supportive clients again! Until that time, we wish you all the best and are confident better days are ahead for us all. Please know that we stand ready to assist you by answering your questions, addressing any concerns you may have, and either confirming existing dates or shifting dates to fit your needs.

We look forward to connecting with you soon!
